

Panel Support Premium | Top Quality Support

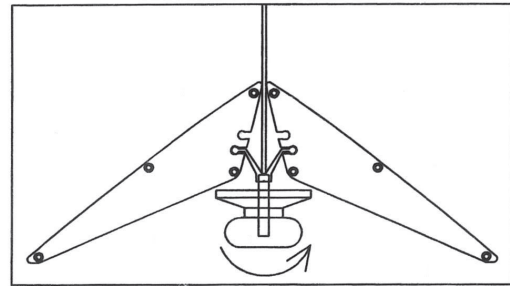

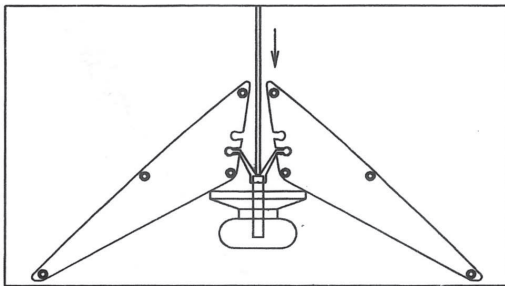

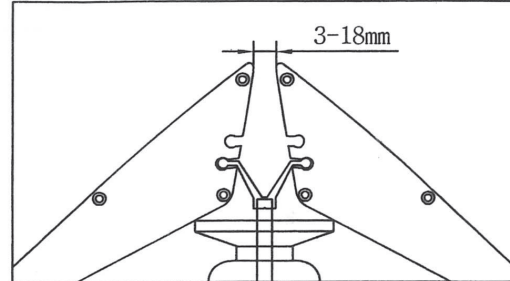

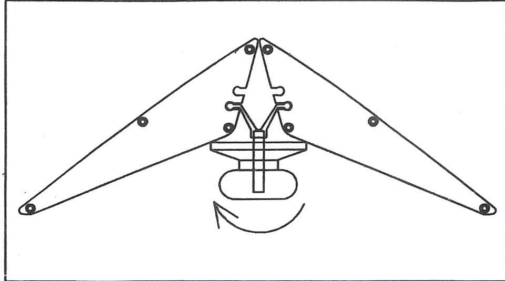

Aluminum support bases for high-strength rigid panels. Premium finishes ideal for displaying Forex, D-bond, wood, or cardboard panels with thicknesses between 3 and 26 mm. **No drilling required.**

- Applications: Suitable for indoor environments (trade shows, conferences, showrooms, retail outlets, temporary installations).
- Outdoor use: Also suitable for medium-term outdoor use.
- Functional design: No fixing holes required.
- Simple: Closes and opens via a convenient knob on the bottom.
- Versatility: Removable structure for quick replacement of graphics or divider panels.
- Modular configuration: The panel width can exceed the base; for large panels, multiple supports can be used in combination.
